

**HIGHER EDUCATIONAL AIDS BOARD
BOARD REPORT #07-21
WISCONSIN STATE STUDENT FINANCIAL AID DATA FOR 2005-06**

The series of exhibits in this Board Report present 2005-06 academic year need-based and non-need-based student financial aid information for Wisconsin resident undergraduates. The colleges and universities within the four different Wisconsin higher education sectors provided the majority of the information reflected in these exhibits. Data was collected by HEAB through the annual Wisconsin Student Support Information System (WISSIS) survey, which is authorized by section HEA1.02 of the State Administrative Code. The four higher education sectors in Wisconsin include the Independent Colleges and Universities, the Tribal Colleges, the University of Wisconsin System, and the Wisconsin Technical College System.

The first group of exhibits reflects all students from all sectors who receive need-based assistance. The second, third, fourth and fifth groups show need-based financial aid data for each sector of schools. The sixth group incorporates the non-need-based assistance received by students who also receive need-based assistance, and the last group combines need-based and non-need-based financial assistance.

EXHIBITS A – K (Need-Based Assistance - All Sectors)

These exhibits show the number of student financial aid recipients, total cost of education, total expected family contribution, total aid received by type and source, and total unmet need. Total number of recipients increased by only 0.7% from 2004-05. The total expected family contribution rose by 13.6% from the prior year, and the cost of education increased by 4.2%. Total need-based financial aid decreased slightly, by 0.8%, following an increase of 8.8% last year. The total number of awards increased by only 0.4% in 2005-06. The average award decreased by \$29 (1.3%), from \$2,257 in 2004-05 to \$2,228 in 2005-06. Total unmet need increased by 1.1% in 2005-06, as compared to 10.0% in 2004-05. The increase in unmet need was much lower than in 2004-05, due to the expected family contribution rising at a faster rate than the cost of education in 2005-06. The increase in the cost of education and the reduction in dollars of need-based aid are somewhat offset by the increase in the expected family contribution.

This is the eighth year that the WISSIS data has been collected using a re-definition of need-based and non-need-based aid, beginning with the 1998-99 report. This change was implemented to better reflect the sources of support that finance the total cost of education.

Reliance on loans continues to be a concern; in 2005-06, loans accounted for 46.0% of all need-based aid. This percentage is a small increase over 2004-05, and the third year that loan use has increased, after slightly declining each year for the prior seven years. This increase in the loan assistance percentage is accompanied by a small decrease in the percentage of grant assistance, also for the third year in the past ten years. Overall loan debt continues to rise, and there are sources of student debt (i.e. credit cards) that are not tracked by HEAB or the institutions. State

funded need-based assistance increased in terms of the portion of need it met (up by 1.9% from 2004-05), while federally funded aid decreased slightly (72.6% in 2005-06 compared to 72.8% in 2004-05). The primary source of assistance in 2005-06 was, as it has been in the past, federally funded aid.

Exhibits A through H are 2005-06 data. Exhibit D reflects data for FAFSA applicants, not aid recipients. Exhibits I through K are 10-year comparisons.

EXHIBITS L - P (Need-Based Assistance - Independent Colleges and Universities)

For the Independent Colleges and Universities in 2005-06, the number of aid recipients increased by 1.8%, but the number of awards decreased by 1.6%. The average award amount decreased by 4.2%. The cost of education increased by 1.3%, and the expected family contribution increased by 21.7%. The total amount of need-based aid decreased by 5.8%. Unmet need decreased by 16.1%. The decrease in unmet need is due to the expected family contribution increasing at a significantly higher rate than the cost of education in 2005-06. The primary type of assistance continues to be in the form of grants. The majority of assistance is funded by the federal government, but to a much lesser extent compared to all other sectors. Institutional assistance accounts for a significantly larger portion of need-based aid than in the other sectors.

Exhibit P reflects data for FAFSA applicants, not aid recipients.

EXHIBITS Q - U (Need-Based Assistance - Tribal Colleges)

For the Tribal Colleges in 2005-06, the number of aid recipients increased by 35.7%, but the number of awards decreased by 2.7%. The average award amount decreased by 16.2%. The cost of education increased by 32.3%, and the expected family contribution increased by 52.9%. The total amount of need-based aid decreased by 18.5%. Unmet need increased by 108.6%. This is due to the increase in the cost of education and decrease in the amount of aid in 2005-06 as compared to the previous year. The primary type of assistance continues to come in the form of grants. State funded need-based aid makes up 27.5% of all need-based aid available to Tribal Colleges. This is approximately twice as much as in the other sectors.

Exhibit U reflects data for FAFSA applicants, not aid recipients.

EXHIBITS V - Z (Need-Based Assistance - University of Wisconsin System)

For the UW System in 2005-06, the number of aid recipients decreased by 0.5%, and the number of awards increased by 0.1%. The average award amount increased by 1.8%. The cost of education increased by 5.9%, and expected family contribution increased by 7.3%. The total amount of need-based aid increased 1.9%. Unmet need increased by 13.2%. This is due to the increase in need-based assistance not keeping pace with the increase in the cost of education. Loan use decreased and grant use increased in 2005-06, reversing the trend of the last two years. The majority of funds in 2005-06 continued to come from loan sources and from programs funded by the federal government.

Exhibit Z reflects data for FAFSA applicants, not aid recipients.

EXHIBITS AA - EE (Need-Based Assistance - Wisconsin Technical College System)

For the WTC System in 2005-06, the number of aid recipients increased by 1.3%, and the number of awards increased 2.8%. The average award decreased by 1.7%. The cost of education increased 4.6%, and expected family contribution increased by 12.8%. Total need-based assistance increased by 1.0%, and total unmet need increased 2.4%. The increase in unmet need is due to the increase in need-based assistance not keeping pace with the increase in the cost of education. The primary type of assistance continues to come from grants. The majority of aid awarded was federally funded.

Exhibit EE reflects data for FAFSA applicants, not aid recipients.

EXHIBITS FF - KK (Non-Need-Based Assistance – All Sectors Combined)

This section identifies the non-need-based assistance received by the students reported in previous sections of this report. The first page combines all four sectors. The following four pages show a breakdown by sector. As noted earlier, this is the eighth year of redefining need-based and non-need-based aid. The number of awards increased by 4.6%, and the total amount of non-need-based aid awarded increased by 15.3%. The average non-need-based aid award increased by 10.3%. The number of private “alternative” loans awards increased by 24.2% in 2005-06.

EXHIBITS LL - MM (Need-Based and Non-Need-Based Assistance Combined – All Sectors)

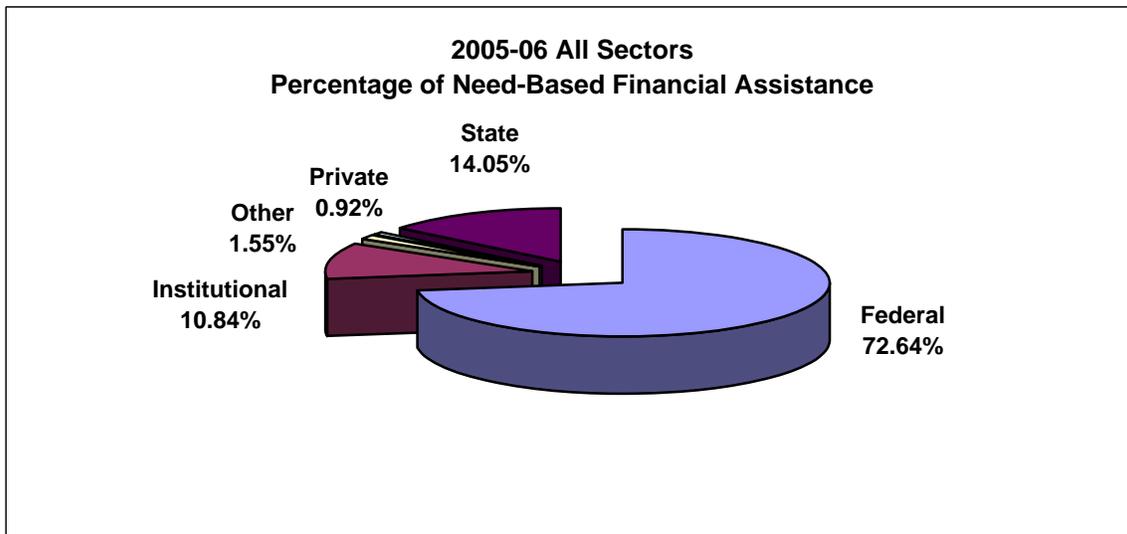

This section combines both the need-based and the non-need-based assistance information. How students finance the total cost of education is provided, as is the source and type of need-based and non-need-based assistance. The largest portion of the cost of education (40.4%) is met by assistance that is based on financial need. The percentage of the cost met by the expected family contribution increased from 31.6% in 2004-05 to 34.5% in 2005-06. The total cost of education met by unknown sources decreased from 8.5% in 2004-05 to 5.9% in 2005-06. The majority of need-based and non-need-based assistance combined is funded by federal loan assistance.

The student population identified in this report includes only Wisconsin-resident, undergraduate students, enrolled at least half-time in a degree or certificate program, who filed a 2005-06 Free Application for Federal Student Aid (FAFSA), and received need-based assistance. Exceptions are Exhibits D, P, U, Z, and EE, which provide data on Wisconsin resident, undergraduate students, awarded and not awarded, for the first school the applicants listed on the FAFSA.

(1) Does not include private assistance and unspecified "other" sources of aid.

(2) Does not include unspecified "other" types of aid.

NOTES:

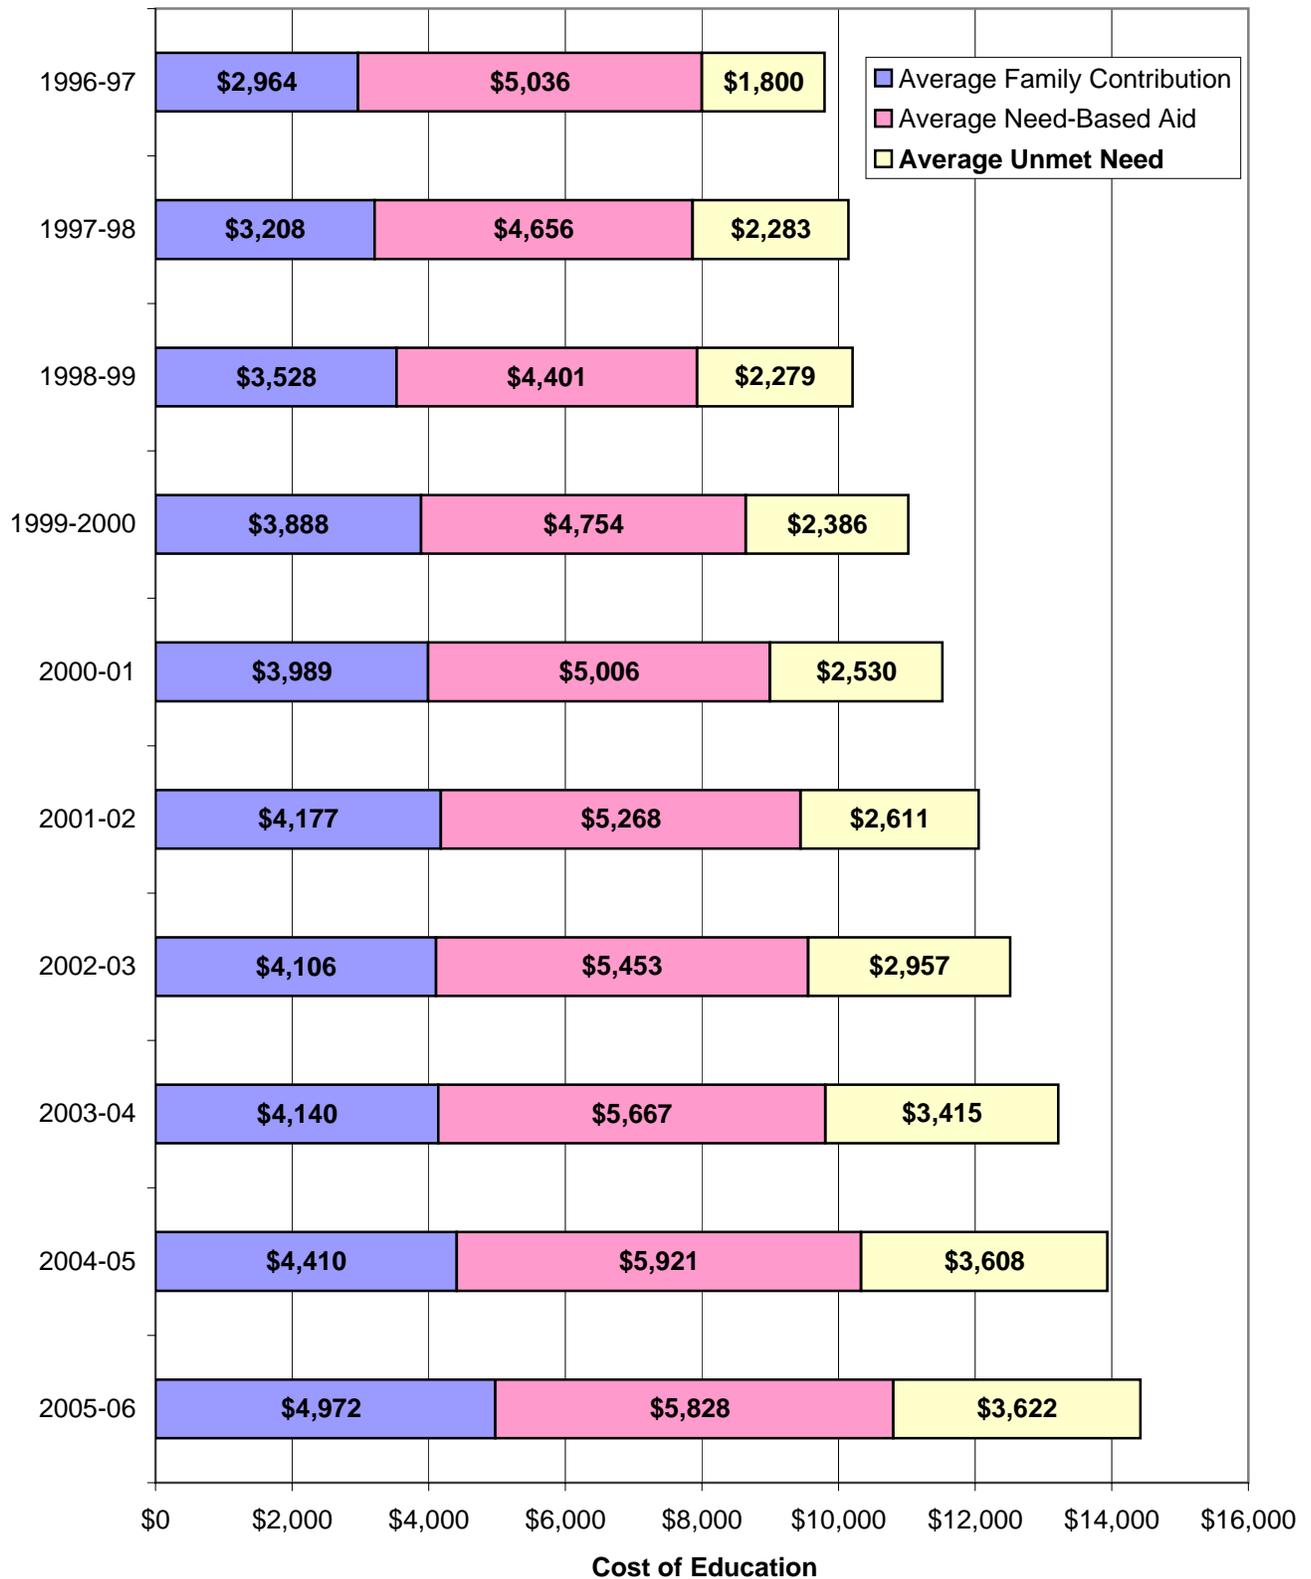

1996-97 updated 11/98 per revised information provided by WTC System (WTC System data includes all students, not just those receiving financial assistance.)

1997-98 difference in average aid is the result of excluding the un-subsidized Stafford, other non-need-based assistance, and short term institutional loans.

1998-99 the definition of Need-Based and Non-Need-Based Assistance was revised for WISSIS data.

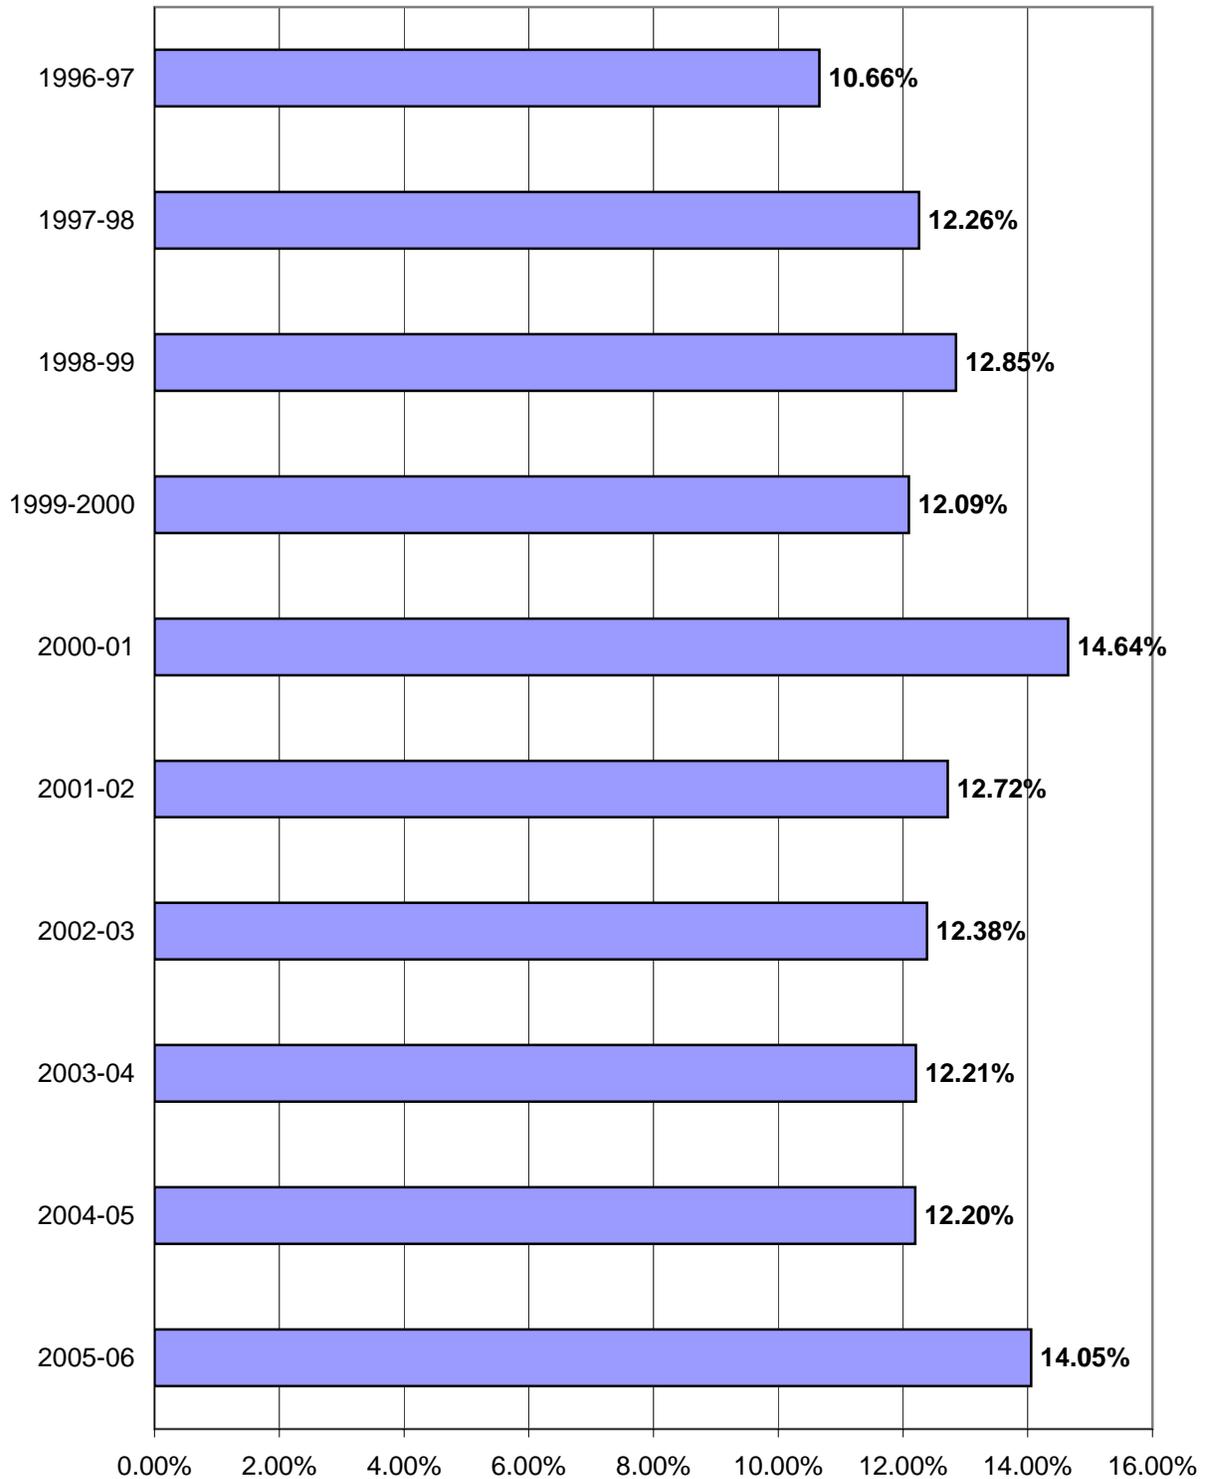

2000-01 the increase in State Aid is due to the late passage of the 1999-2001 Budget Bill, which caused a large carry-forward of unspent funds from 1999-2000.

(1) Does not include private assistance and unspecified "other" sources of aid.

(2) Does not include unspecified "other" types of aid.

NOTES:

1997-98 difference in average aid is the result of excluding the un-subsidized Stafford and other non-need-based assistance.

1998-99 the definition of Need-Based and Non-Need-Based Assistance was revised for WISSIS data.

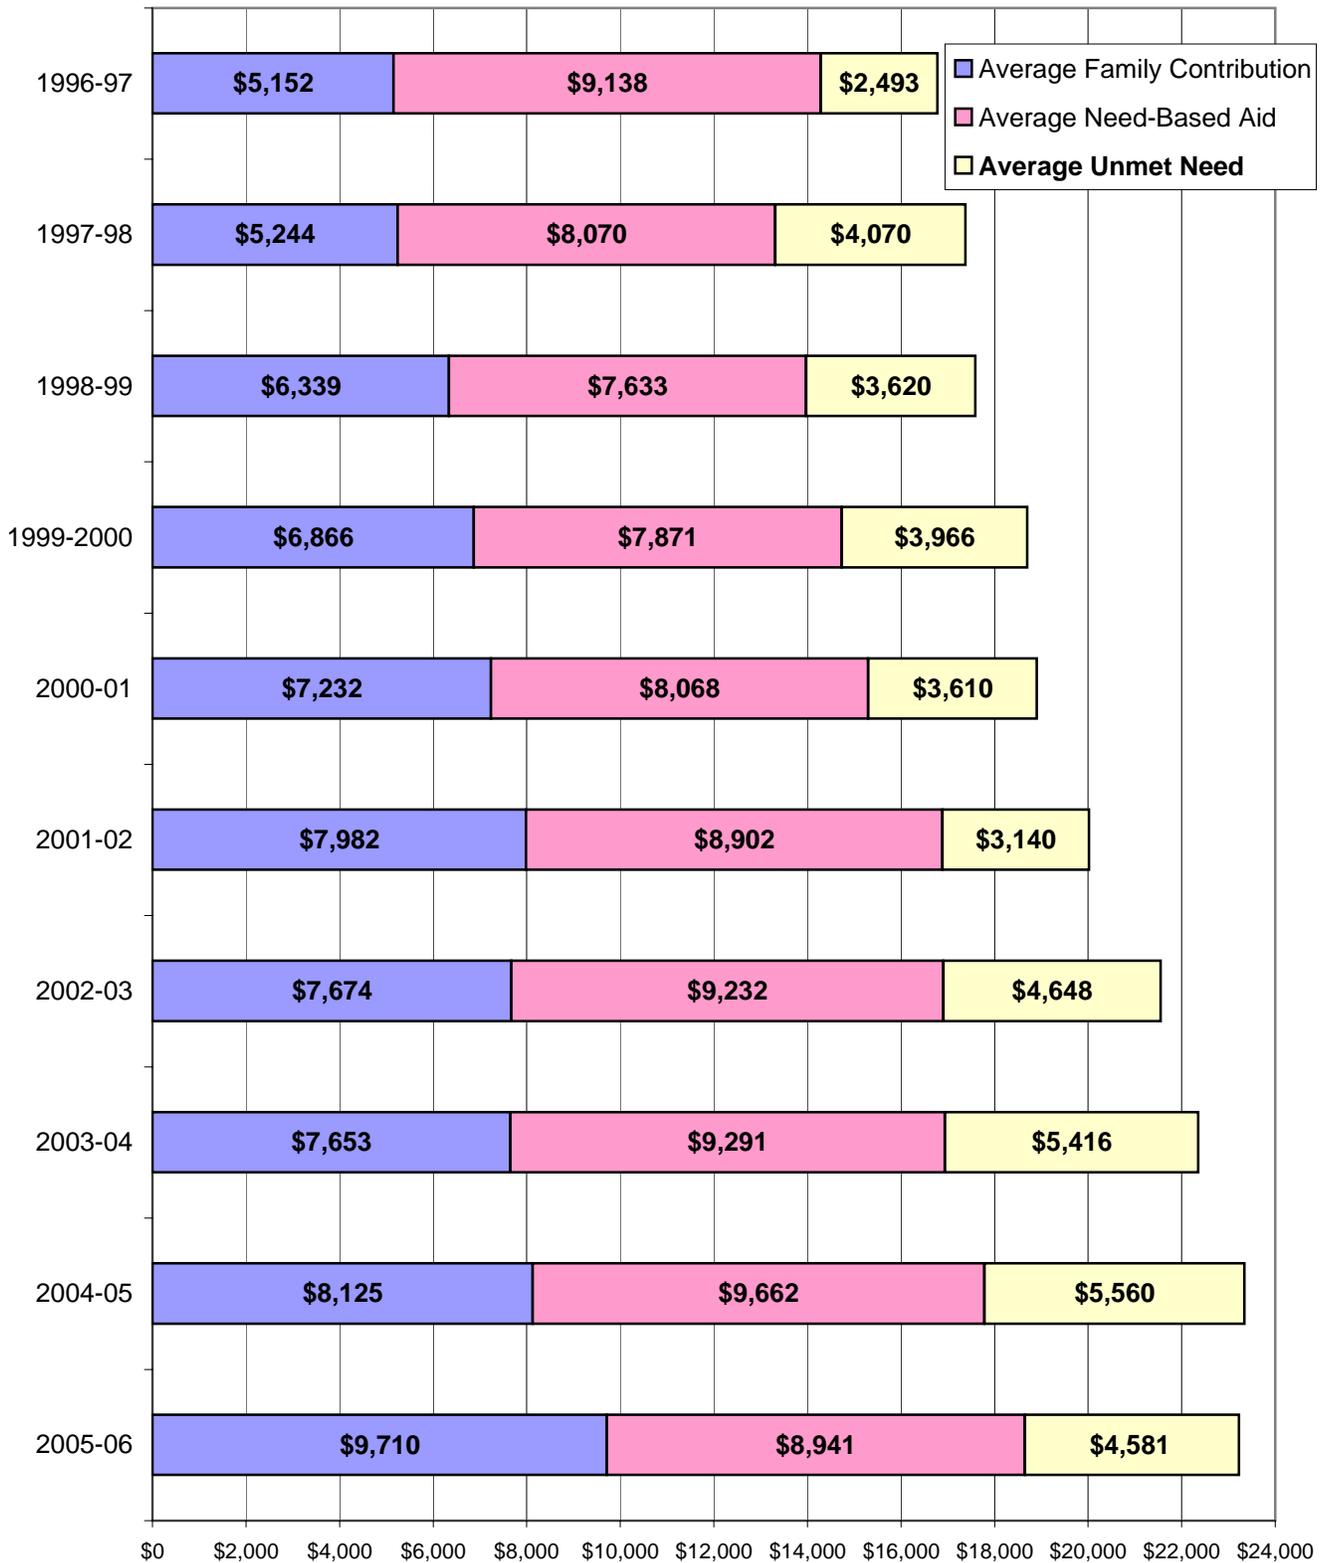

2000-01 Tribal Colleges were separated from the Independent Colleges & Universities data. *

2000-01 the increase in State Aid is due to the late passage of the 1999-2001 Budget Bill, which caused a large carry-forward of unspent funds from 1999-2000.

* 1996-97 was the first year in which the Tribal Colleges were surveyed for WISSIS.

This table has been altered to no longer include Tribal College data, beginning with the 1996-97 data.

10-Year Average Cost of Education and Unmet Need Independent Colleges and Universities

(1) Does not include private assistance and unspecified "other" sources of aid.

(2) Does not include unspecified "other" types of aid.

NOTES:

1997-98 difference in average aid is the result of excluding the un-subsidized Stafford and other non-need-based assistance.

1998-99 due to a change in the WISSIS data request, Institutional and Private Assistance were appropriately classified as Non-Need-Based financial aid.

1998-99 the definition of Need-Based and Non-Need-Based Assistance was revised for WISSIS data.

2000-01 the increase in State Aid is due to the late passage of the 1999-2001 Budget Bill, which caused a large carry-forward of unspent funds from 1999-2000.

(1) Does not include private assistance and unspecified "other" sources of aid.

(2) Does not include unspecified "other" types of aid.

NOTES:

1996-97 updated 11/98 per revised information provided by WTC system (WTC system data includes all students, not just those receiving financial assistance.)

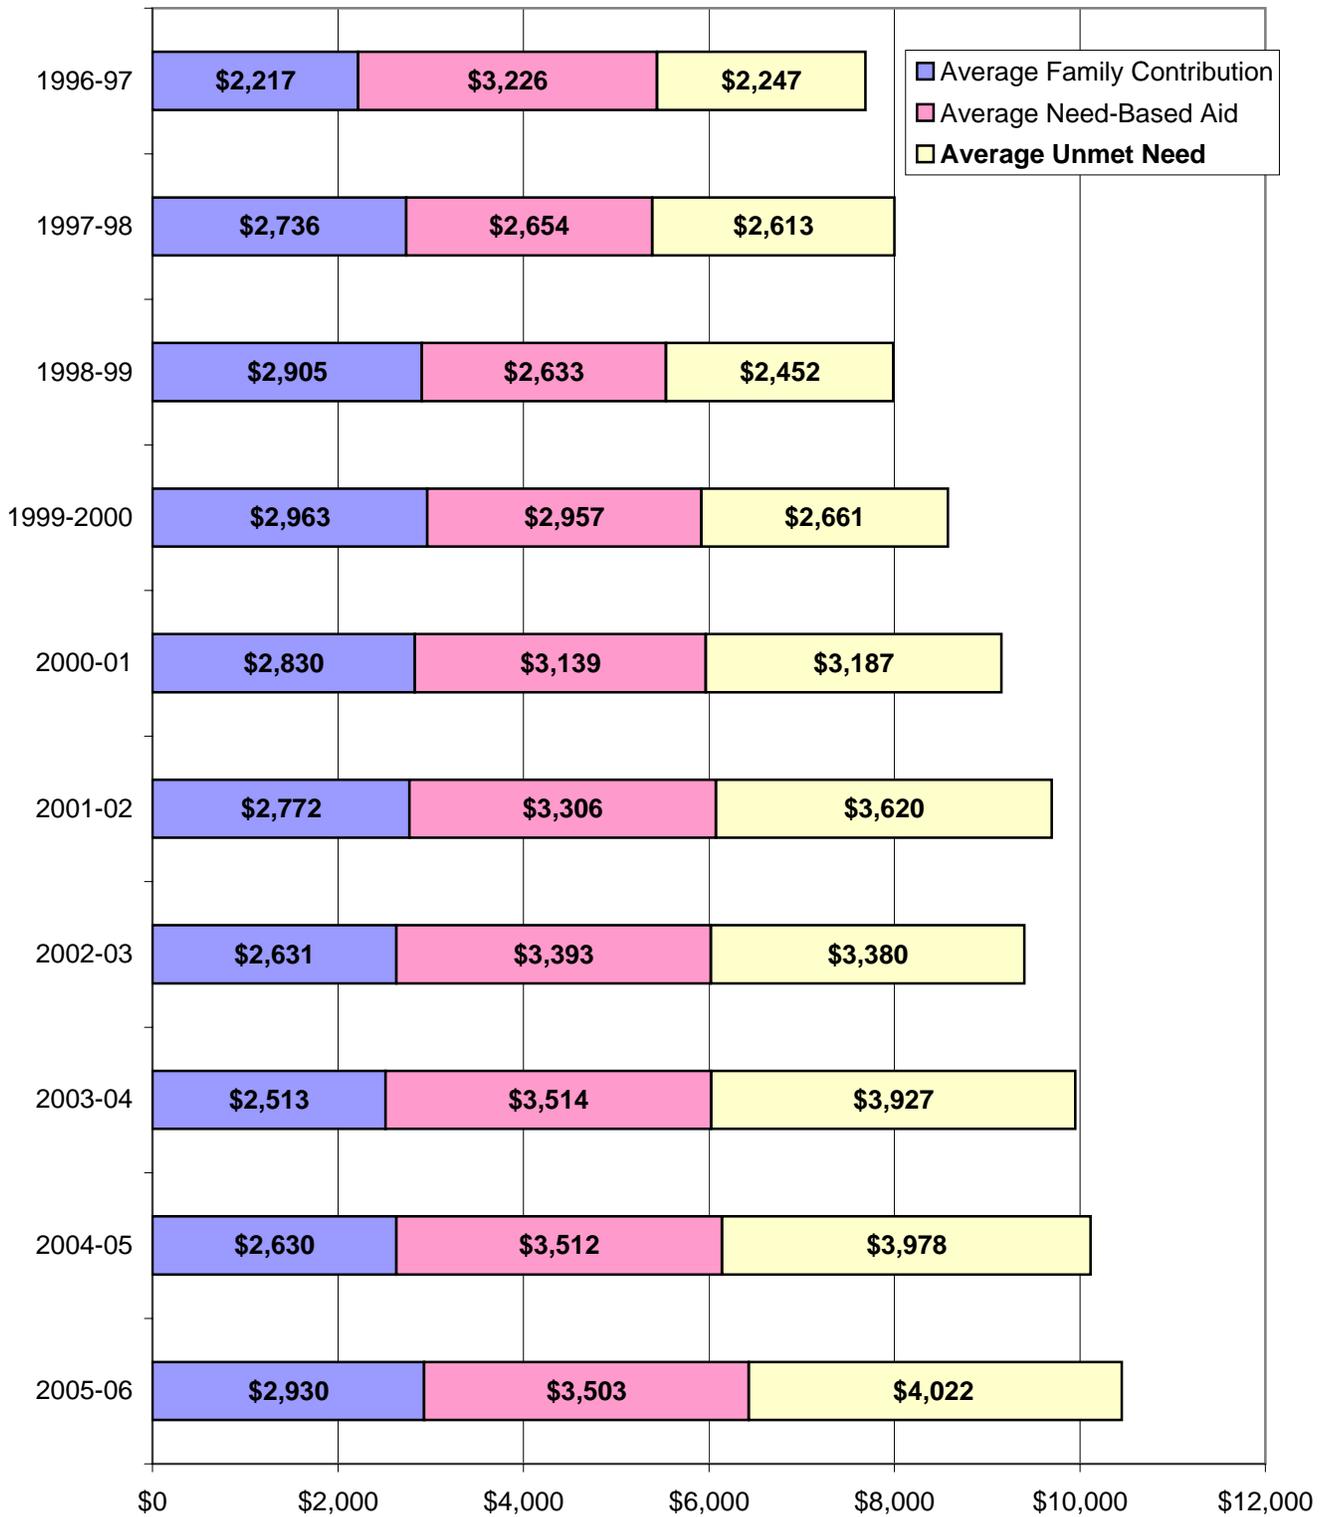

1997-98 difference in average aid is the result of excluding the un-subsidized Stafford, other non-need-based assistance, and short term institutional loans.

1998-99 institutional employment and short term (less than one year) institutional loans were excluded from Institutional Assistance.

1998-99 the definition of Need-Based and Non-Need-Based Assistance was revised for WISSIS data.

2000-01 the increase in State Aid is due to the late passage of the 1999-2001 Budget Bill, which caused a large carry-forward of unspent funds from 1999-2000.
