# PROPOSED 2012-2013 FORMULAS WISCONSIN TUITION GRANT

### February 17, 2012 Board Report #12-07

#### **WISCONSIN TUITION GRANT**

#### Introduction

HEAB administers the Wisconsin Tuition Grant which provides grants to students attending Wisconsin private, independent non-profit colleges and universities. Grants are awarded based on the economic needs of students. Grant recipients apply through the Federal Department of Education using the FAFSA (Free Application for Federal Student Aid). The Higher Educational Aids Board reviews and approves the Tuition Grant formula for the upcoming school year at its February/March meeting.

The structure of the WTG formula is outlined in Wisconsin State Statutes (39.30). There are six steps in the formula and grants are calculated differently for dependent and independent students. The current formula is included for review (see Table 2).

#### Recommendations:

UW-Madison Tuition: \$9,672 Base Maintenance: \$10,500

The proposed formula is outlined in Dr. Rolf Wegenke's letter which is attached and is

illustrated in Table 1 of this document.

WISCONSIN'S PRIVATE COLLEGES WORKING TOGETHER TO ADVANCE EDUCATIONAL OPPORTUNITY

February 8, 2012

Mr. John Reinemann Executive Director Higher Educational Aids Board 131 W. Wilson Street, Suite 902 Madison, WI 53702

Dear Mr. Reinemann:

As required by state statute, I am transmitting to you WAICU's recommendation for the Wisconsin Tuition Grant (WTG) formula for the 2012–2013 academic year. I understand that the Higher Educational Aids Board (HEAB) will consider this recommendation at its meeting on February 17, 2012.

In developing this year's recommendation, WAICU remains committed to the principles that the WTG should contribute a meaningful portion of a student's overall financial aid package; that the neediest students should receive the greatest share of benefits under the program; that, to the degree possible, students who have been receiving the WTG continue to do so; and that the total allocation of WTG funding should be as equitably distributed between independent and dependent students as possible. It is the unanimous position of the WAICU Board (the presidents) that, over time, the grant maximum and the value of the average grant must increase.

Based on discussions with the WAICU Financial Aid Group and HEAB staff, it is my recommendation that HEAB adopt "SIM 1" on the attached spreadsheet as the formula for the 2012–2013 academic year. Based on our consultations, this formula appears to offer the best approach to preserve the stability of the program and predictability of awards, consistent with our best estimates concerning available funding under the three funding scenarios posited by HEAB.

I want to thank you, Sherrie Nelson, and Deanna Schulz for meeting with WAICU staff and the WAICU financial aid professionals in developing the formula. You, Sherri, Deanna and the other HEAB staff continue to exemplify one of the most constructive working relationships between a state agency and a constituent group that I have ever experienced.

Should you have questions or concerns regarding the WAICU recommendations, please contact either me or Ms. Wendy Wink, WAICU Executive Vice President.

Best wishes . . .

Sincerely,

Rolf Wegenke, Ph.D.

President
